My name is Paul Barran and I have worked with charities for more than 12 years as a Disability Discrimination Consultant.

I recently decided to set about turning my years of commercial experience to develop a solution to increase income streams for clubs, schools and charities.

This came about after I had been asked by my Daughter's school to assist in fundraising and I was very much aware just how hard it has become to generate support from businesses, families and friends by way of the traditional fund raising routes like raffles and Christmas fairs in our current financial climate. Also on setting up a local girls football team as my youngest Daughter loves the game - again reality is that clubs can only survive if we fund raise.

My Solution

An online fundraising shop and auction site for schools/clubs and charities only.
